

**93%**

of students say the academic rigour of their programme is as good as or better than they expected\*

**92%**

of students say that shared learning opportunities with other students are as good as or better than they expected\*

**2 out of 3**

students have seen a career improvement since starting their programme\*

\* Results calculated by the University of Roehampton, London Online based on the responses of 676 current students who responded to the annual student satisfaction survey in 2014. At the time the research was fielded, this was a response rate of 33%.

## Aspire. Achieve. Advance.

Develop the skills and knowledge needed to help identify and solve public health issues around the world. Become an agent of positive change for health in your community by increasing awareness, preventing disease, and promoting public health initiatives.

Through our interdisciplinary Master of Public Health (MPH) programme, you can develop an understanding of global public health issues and explore theories and practices that will help you prepare to address the public health needs of your community and around the world.

As a Roehampton Online student, you will have the opportunity to::

- Develop skills relevant to career advancement
- Increase your confidence
- Identify career goals and track your progress
- Manage your studies on your schedule
- Gain insights from a diverse student population
- Develop a social network within the university, helping you stay motivated
- Establish lasting professional relationships

*Since joining the online MPH programme at the University of Roehampton, I have looked at health in a broader spectrum than before – especially in relation to the socio-ecological factors affecting health.*

**Daniel Tom-Aba**  
Nigeria

## Why choose this programme?

Gain knowledge and skills to plan and implement innovative, effective public health interventions that reflect an understanding of complex and dynamic public health issues.

Develop the confidence to challenge and extend knowledge and practice in public health management in different contexts.

Enhance your career prospects in the public health sector by developing vital leadership, analytical and personal skills.

Attain a global perspective while developing a thorough knowledge of all the main disciplines of public health.

## The Roehampton difference

You'll be earning your degree from a British university that has a proud 175-year history of providing quality education through its four colleges.

Each of our online masters programmes has been carefully developed by academics and subject-matter experts to reflect contemporary industry trends and help prepare you to solve real-life problems.

### Optimal class sizes

Classes maximise time and interaction with faculty members and students in a diverse classroom.

### Faculty interaction

Faculty members guide students through activities and provide formative feedback.

### Academic material

All required materials for each module are provided in the classroom.

### Student community

Programmes are centred on the wider student body, so you can build a broader professional network.
